# The LOCAS + project

## First steps in semantic world

Marc Jamouille, Michel Roland, Robert Vander Stichele,  
Joseph Roumier, Fabrice Estievenaert, Nikolaos Matskanis,  
Olivier Latignies, Cyril Romain

## *From flat world to semantic world*

- We are used to use flat representation of the reality
  - Using books till recently
  - Using informatics and database like Excell, Access or SQL
  - Needs in knowledge management and classification fields are growing and multiaxial representation of the reality is needed
- 
-

## *New information technology available*

*Out of the closed world of databases*

*The information and the information about information*

*DATA + METADATA*

*Everything can be identified by URIs*

A URI is a formal representation of an unit of information

`<http://locasplus.be-care.be:8900/resource/cisp2_dataset/K94>`

---

---

## *New information technology tools available*

**XML** Customized tags, like:

`<human>Marc</human>`

+ **RDF** Relations, in triples, like:

`(Marc) (is_member_of) (WICC)`

+ **Ontologies** Hierarchies of concepts, like

`drug -> late effect -> tiredness -> patient`

+ **Inference rules** Like:

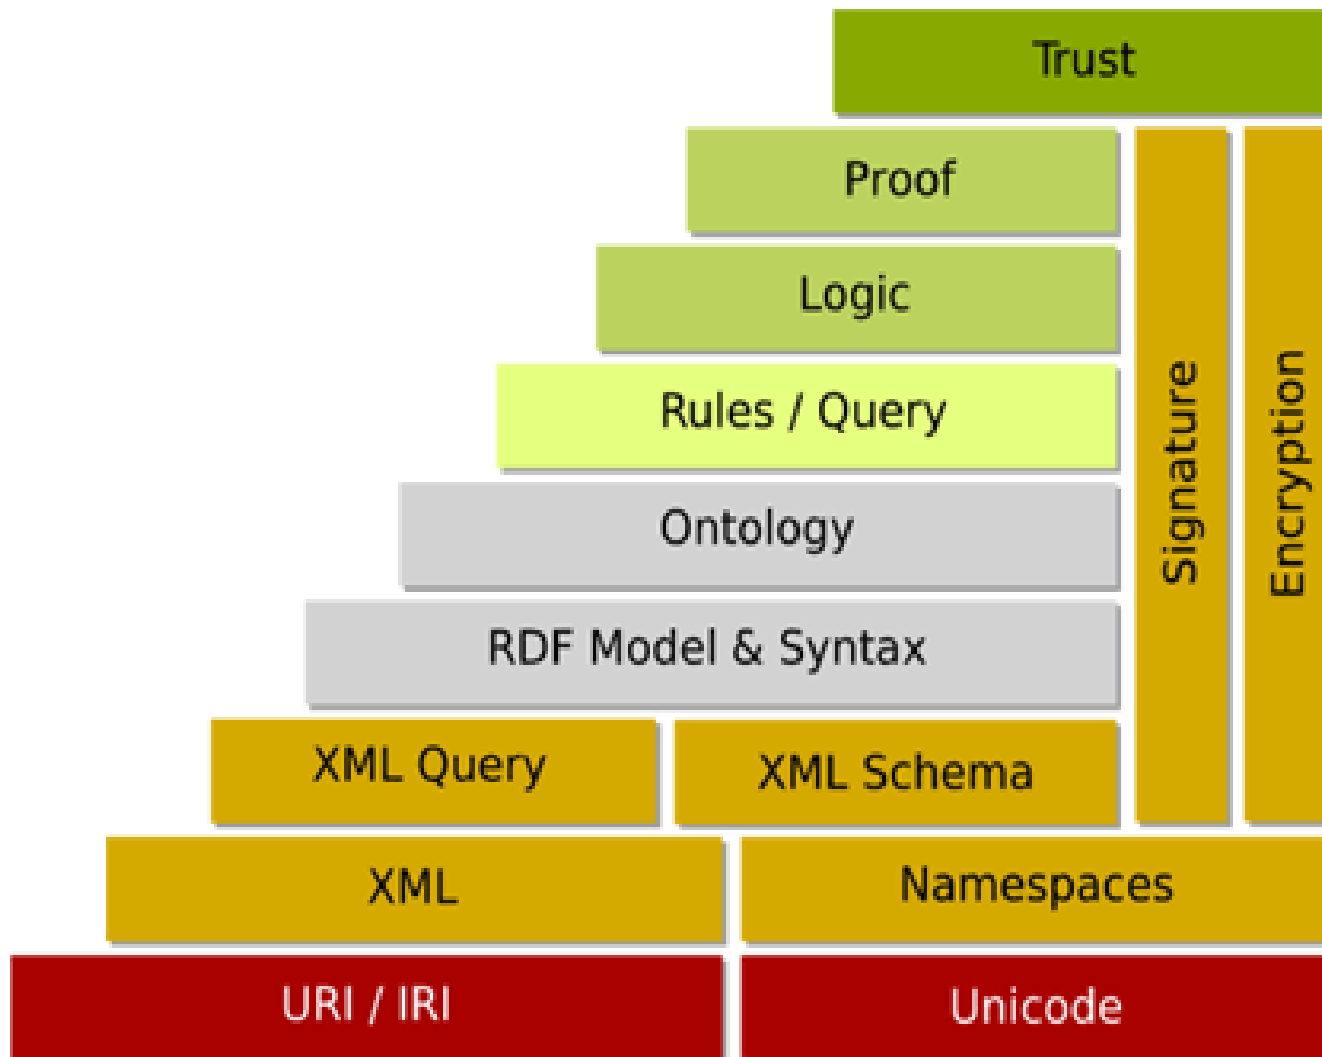

`If (person) (has) (disease), then (person) (looks_for) (doctor)`

= **Semantic Web!**

---

---

## The Semantic cake

*Linking data on the web*

THE LINKED DATA WORLD

---

---

## *Exploring semantic world*

Sharing knowledge with computer scientist at CETIC

- « Fair » exchange :
- Knowledge and tools in classification world

Versus

- Knowledge and tools in semantic world

by

– --> lecture & exercises

– --> LOCAS +

- Marc Jamouille : marc[at]jamouille.com Medecin généraliste.CAMG UCL & Société CMGJA sprl
- Benjamin Fauquert ; bfauquer[at]julb.ac.be Medecin généraliste.Assistant ULB
- Pierre De Plaen ; p\_[at]md10.be Medecin généraliste.
- Benny Van Den Bruanne ; Benny.VanBruwaene[at]juzbrussel.be Médecin spécialiste informaticien
- Joseph Roumier ; joseph.roumier[at]cetic.be Ingénieur ontologiste CETIC
- Cyril romain ; romain.cyril[at]gmail.com Informaticien Société CMGJA sprl et CBIP asbl

Présentations de Joseph Roumier ; Ontologies - Introduction ( slides en [OpenOffice](#) )

- [Formation 1](#) ;
  - I. Introduction et exemples
  - II. Bases pour les ontologies
  - III. Que fait-on avec les ontologies ?
  - IV. Quelles techniques pour les ontologies ?
  - V. Quels logiciels pour les ontologies
- [Formation 2a](#) ;
  - I. Interopérabilité des ontologies
  - II. Web Sémantique / Semantic Web
  - III. OWL: langage pour les Ontologies du Web
- [Formation 2b](#) ;
  - I. Construction des ontologies
  - II. Interopérabilité des ontologies
  - III. Web Sémantique / Semantic Web
  - IV. OWL: langage pour les Ontologies du Web
  - V. Ontologies médicales
  - VI. Terminological Markup Framework
- [Formation 3](#) ;
  - I. Terminologie Orientée Concept
  - II. Données Liées (Linked Data)
  - III. Modélisation

- Formation aux ontologies, été 2010 au Cetic

Rapports de réunion ;

- 4 juin 2010 ; Réunion de préparation
- 23 juin 2010; [Première session de formation](#)
- 14 juillet 2010
- 25 août 2010

Exercice ;

## *Exploring the link between*

Two terminologies

Locas codes 5000 usual words of GP/FM to CISP-2

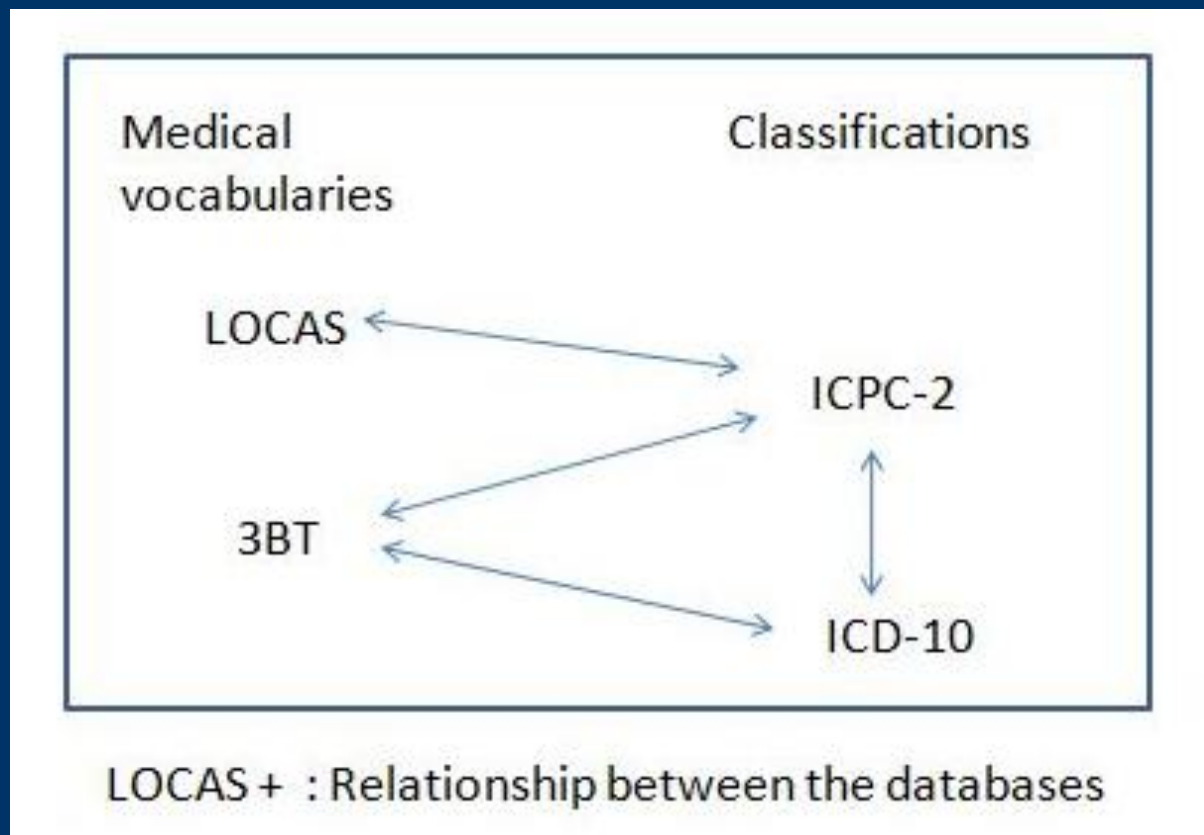

3BT links 50.000 terms,  
each with a unique ID (called IBUI)  
to a French label,  
a Dutch label,  
ICPC  
and ICD code

Two classification : ICPC-2 & ICD-10

---

---

## LOCAS + : Exploring relations with semantic tools

All items are transformed in URI and edited on the net

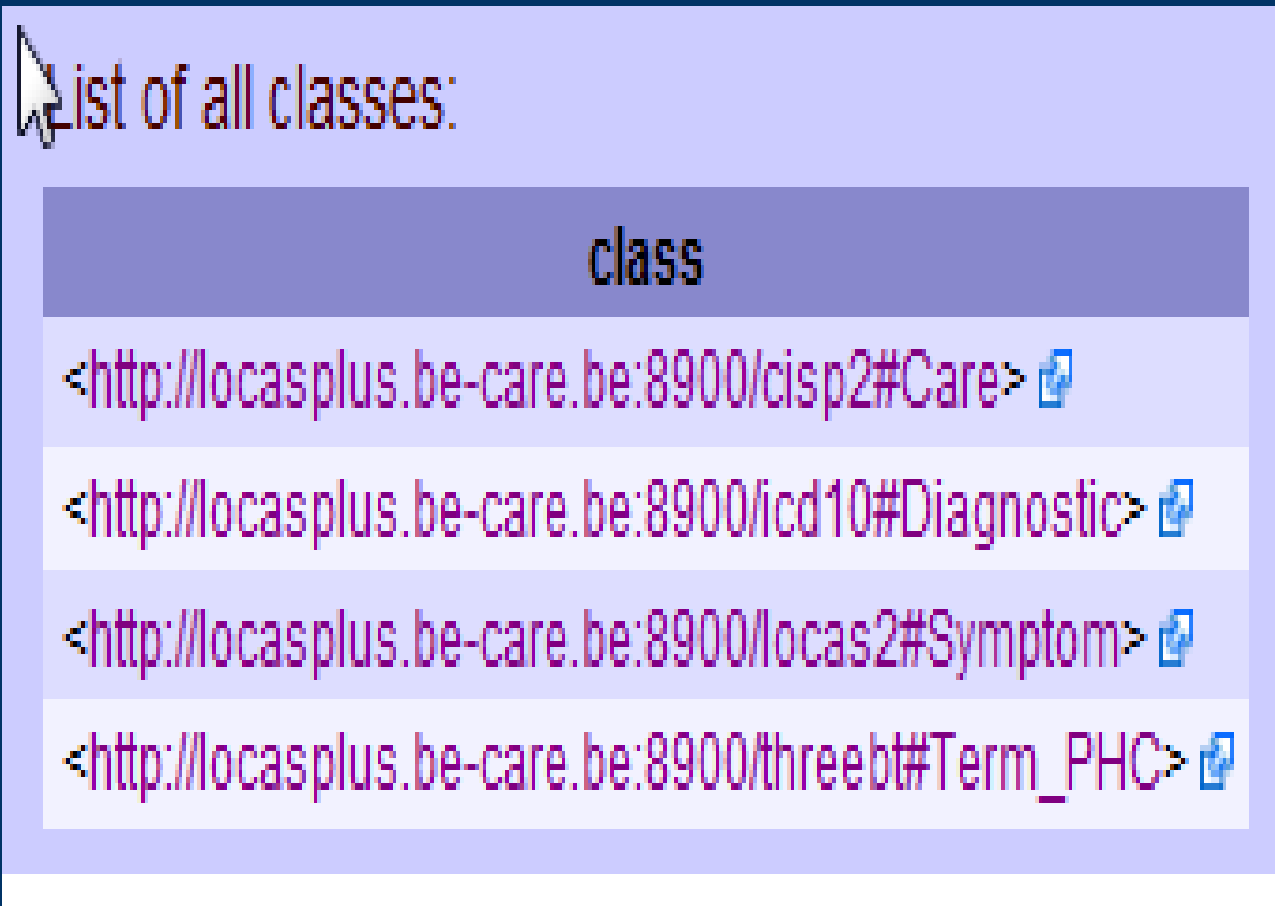

Query by a special semantic query tool called SPRQL

---

---

## Exploring the tool

4 classes

A screenshot of a web application interface. At the top left, a mouse cursor points to the text "List of all classes:". Below this text is a table with a single column header "class". The table contains four rows, each with a URL and a small blue icon to its right. The URLs are: <a href="http://locasplus.be-care.be:8900/cisp2#Care">http://locasplus.be-care.be:8900/cisp2#Care</a>, <a href="http://locasplus.be-care.be:8900/icd10#Diagnostic">http://locasplus.be-care.be:8900/icd10#Diagnostic</a>, <a href="http://locasplus.be-care.be:8900/locas2#Symptom">http://locasplus.be-care.be:8900/locas2#Symptom</a>, and <a href="http://locasplus.be-care.be:8900/threebt#Term\_PHC">http://locasplus.be-care.be:8900/threebt#Term\_PHC</a>. The interface has a light purple background.

class
<a href="http://locasplus.be-care.be:8900/cisp2#Care">http://locasplus.be-care.be:8900/cisp2#Care</a> 
<a href="http://locasplus.be-care.be:8900/icd10#Diagnostic">http://locasplus.be-care.be:8900/icd10#Diagnostic</a> 
<a href="http://locasplus.be-care.be:8900/locas2#Symptom">http://locasplus.be-care.be:8900/locas2#Symptom</a> 
<a href="http://locasplus.be-care.be:8900/threebt#Term_PHC">http://locasplus.be-care.be:8900/threebt#Term_PHC</a>
