

State of WICC 2013

Mike Klinkman

Chair

Wonca International Classification Committee

Johannesburg. South Africa

September 20, 2013

DEI MINVMI STRI FRON

HALCIDICVM CI

Let's be creative.

WICC MISSION:

To develop and maintain classifications that accommodate the complete domain of family/general practice

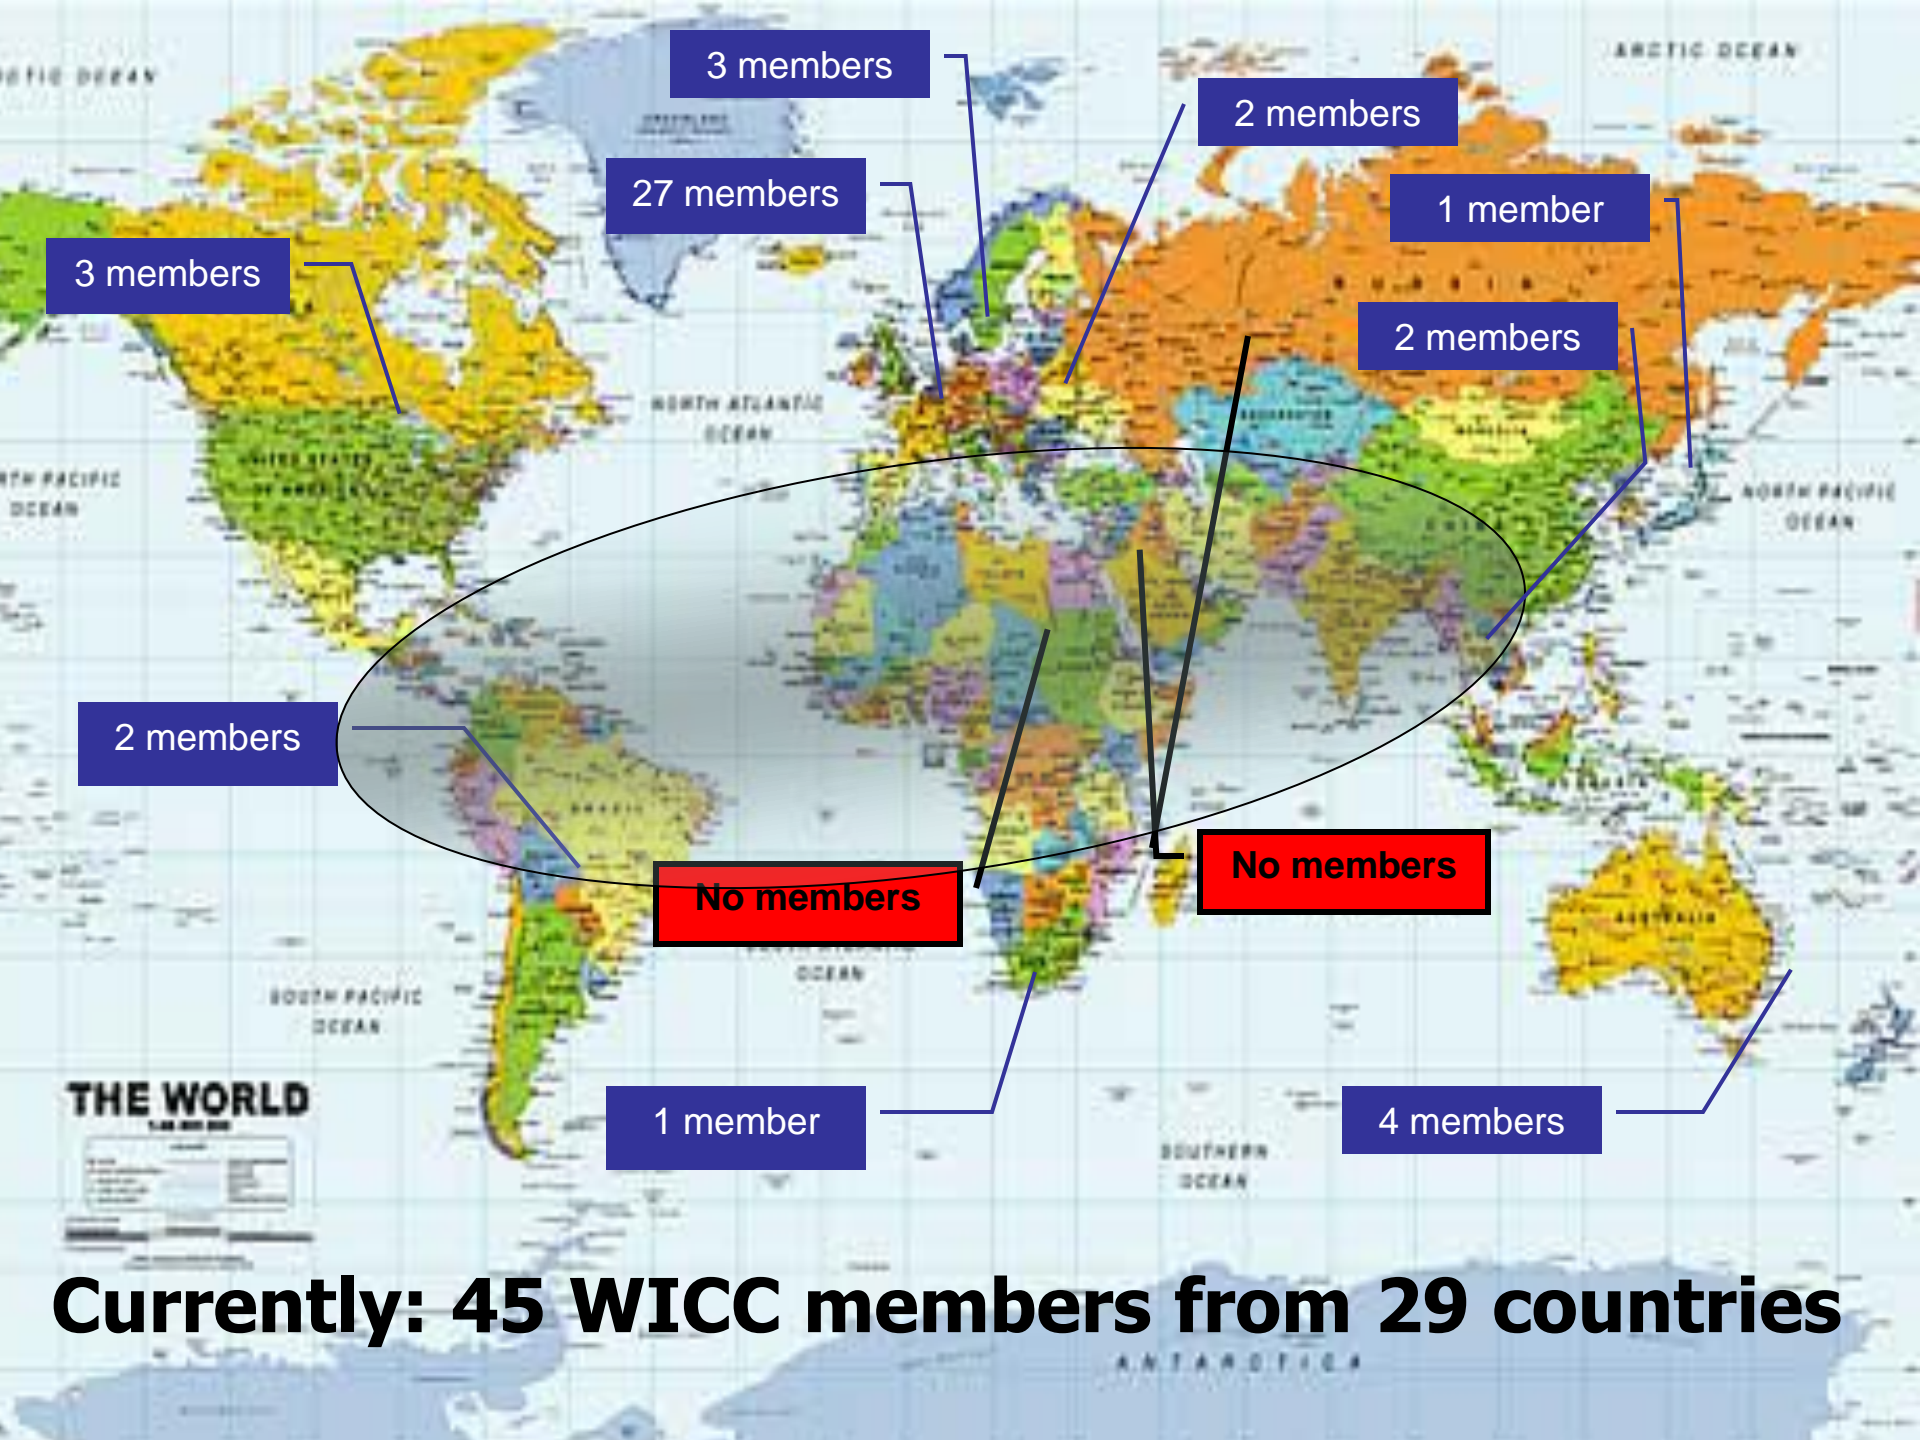

AND

To ensure that these classifications are interoperable to the highest degree possible with standard international health care terminologies and classifications

IN ORDER TO contribute to equitable quality health care worldwide.

GOALS:

- To achieve widespread international use of ICPC
- To maintain and revise ICPC to accommodate expanded health care knowledge
- To develop productive working relationships with other international standards development organizations
- To support the work of WICC and Wonca through licensing of ICPC
- To create and disseminate additional classification tools as needed to capture and codify the complete domain of family/general practice

Currently: 45 WICC members from 29 countries

**This meeting:
29 members from 21 countries
6 observers from 6 countries**

Ravello 2012

2012 WICC Annual Meeting

Happy 40th Birthday!

GOALS of 2012 meeting

- Review and approve the work plan for the IHTSDO FP/GP SIG:
 - Progress on SNOMED-CT primary care refset
 - SNOMED refset- ICPC map
 - Field trial
- Decide how to continue collaboration with WHO on ICD-11
- Review and revise ICPC-3 Blueprint [to guide work on ICPC-3 and personal factors]
- Review and revise data model [to guide work on ICPC-3 and personal factors]
- Review draft ICPC-3 chapters and develop work plan for full set of chapter drafts for base ICPC-3 for 2013

Items from Action Plan

2012-13 action plan review

	TASK	TARGET DATE	LEAD
1	Complete "statement of interests" (conflict of interest)	11/1/2012	Gervas/all Ongoing
2	Wonca communications MK to write annual report for Wonca Executive by end December 2012	12/31/2012	Klinkman DONE
	MK to write report on this meeting for Wonca News by end December 2012	12/31/2012	Klinkman DONE
3	IHTSDO GP SIG – Terminology Group Continue on with work plan Expect refset release by end-2012 Refset – ICPC map before 2013 Annual Meeting	ongoing 1/1/2013 10/1/2013	Booth/Miller Ongoing
4	WHO collaboration Pilot project of primary care content in GI chapter	3/1/2013	Kuehleir/van Boven DONE
	Work with Wonca core executive to get primary care group in WHO-FIC	ongoing	Klin NOT DONE
	Continue ICF work	ongoing	Letrilliart/Boeckx ??

5	<p><i>Update Group</i></p> <p>Complete draft of coding rules WICC comments to draft rules Posted version to website PERI White Paper for review</p>	<p>1/1/2013 2/1/2013 3/1/2013 4/1/2013??</p>	<p>Kuehlein/van Boven DONE vanBoven ??</p>
6	<p><i>Process Group</i></p> <p>suggest a structure for IC-Process-PC update, but not yet inclusion and exclusion criteria</p>	<p>10/1/2013</p>	<p>Kvist ??</p>
7	<p><i>Terminology / Structure Group</i></p> <p>revise White Paper regarding data structures</p>	<p>4/1/2013</p>	<p>? NOT DONE</p>
8	<p><i>Establish ICPC Training Working Group</i></p>	<p>10/1/2013</p>	<p>? NOT DONE</p>
9	<p><i>ACGI collaboration</i></p> <p>Charter working group to explore interface between ACG and ICPC and begin pilot project</p>	<p>10/1/13</p>	<p>Boeckxstaens Ongoing</p>

10	<p><i>Consortium development</i> Register 'PH3C' and 'Primary Health Care Classification Consortium' as business names</p> <p>Create a White Paper describing possible structure of a Consortium arrangement</p>	<p>Now</p> <p>3/1/2013</p>	<p>Executive NOT DONE</p> <p>Klinkman Ongoing</p>
11	<p><i>ICPC-2 book copyright</i> Establish copyright status of text in published ICPC books (ICPC, ICPC-2, ICPC-2-R) to determine whether possible to publish text from ICPC-2 books as electronic publication</p>	<p>Now</p>	<p>Executive DONE</p>
12	<p><i>ICPC-3 Blueprint</i> WICC members will send comments on ICPC-3 Blueprint document to MK MK will revise and distribute Blueprint</p>	<p>1/1/2013</p> <p>3/1/2013</p>	<p>Klinkman NOT DONE</p>

13	<p><i>ICPC-3 work plan</i></p> <p>Create Excel/Access working files Circulate 'ICPC-3 kit' containing data on frequencies, description of process for reviewing and making draft chapter Post comments in ICPC section on PH3C website Chapter working groups will prepare initial rough draft with comments before 2013 Annual Mtg</p>	<p>1/1/13? 2/1/13? ? 10/1/13</p>	<p>Britt Sagen/Chrismo/ Pinto</p> <p>all</p> <p>Leads</p> <p>Ongoing Ongoing</p>
14	<p><i>WICC presence at Prague World Wonca Meeting 2013</i></p> <p>WICC meeting scheduled (open meeting?) WICC presentations, including SNOMED CT RefSet work, WICC presentation to Wonca Council</p>	<p>12/31/2012 12/31/2012</p>	<p>Klinkman</p> <p>Klinkman</p> <p>DONE DONE</p>
15	<p><i>Prepare list of supplemental budget requests for Wonca review</i></p>	<p>1/1/2013</p> <p>DONE</p>	<p>Klinkman + others</p> <p>not supported</p>

Scorecard 2012-2013

DONE

7 items –

Wonca reports
Pilot work on
ICD-11-PC
ICPC-2 update group
OUP copyright
Prague presence
Budget requests

**Ongoing/
uncertain**

6 items –

Statement of interest
SNOMED-ICPC linkage
Process work
PERI White Paper
ACGi collaboration
ICPC-3 chapter drafts

NOT DONE

6 items –

WHO-FIC
integration
Structure
White Paper
ICPC training WG
Consortium
WICC budget
support
ICPC-3 blueprint
revision

Prague, June 2013

accomplishments:

- 2-day project meeting of IHTSDO GP SIG to prepare for field trials
- Met with new CEO, President, Exec
- Met with ACGi leads to coordinate effort
- Addressed Wonca Council
- Multiple WICC member presentations
- 2 ICPC workshops – Basic, ICPC-3
- Much interest in participating in WICC, a few inquiries on licensing ICPC-2

What we need.

1. Greater understanding of ICPC as IT platform to support multiple Wonca activities
2. Decision - and resolve - to take advantage of this opportunity
3. Support for a "Consortium" to develop ICPC-3 and integrate it into health IT systems around the world

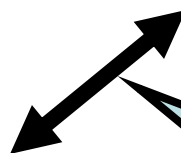

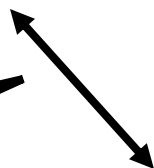

External work

WHO
(ICD, ICF, ICHI)

IHTSDO
(SNOMED-CT)

Wonca
(ICPC)

ISO

GOALS:
harmonize 'primary care content' in ICD-11 with ICPC and develop ICF

GOALS:
create useful primary care termset and link ICPC to SNOMED

GOALS:
Ensure that primary care tools follow ISO standards

IHTSDO

Ongoing work with IHTSDO

- International Family Practice/General Practice Special Interest Group chaired by Nick Booth (UK)
- Work plan for SIG
 - *SNOMED-CT primary care reference set of terms*
 - *SNOMED refset to ICPC map*
- Work coordinated through University of Sydney
- SIG Meetings: Leeds 4/12, Ravello 10/12, Prague 6/13
- Initial phase of work nearing completion

WHO

Ongoing work with WHO

- MOU between Wonca and WHO completed
- Collaborative work on ICF
- Continued participation in ICD-11 development
 - *Primary Care Consulting Group of Mental health TAG*–
 - *ICD-11 chapters – "primary care content" for primary care linearization*
 - *Primary care TAG not formed*
 - *Participation in Topic Advisory Groups, Revision Steering Group not accomplished*

ISO: International Standards Organization

Our Ref.: ExtRel/G/ WONCA /CEN/TC 251

2012-07-19

Subject : Your request for liaison status with CEN/TC 251

Dear Dr. Loh,

I am very pleased to inform you that the liaison status has been granted to WONCA with CEN/TC 251 “Health informatics” by Decision 1048/2011rev.

To facilitate the communication between WONCA, CEN/TC 251 and with CCMC (CEN-CENELEC Management Centre), we note that Mr François Mennerat will serve as a permanent interface between the CEN/TC 251, CCMC and WONCA.

not supported

Internal work

Active Working Groups

- Update Group led by Kees van Boven
 - Far-ranging discussions on coding rules
 - also considering how to accommodate *PERI*, *ICE*
- Process Group led by Marten Kvist
 - Discussing revisions to process section
- ICPC-3 draft work led by Helena Britt
 - Developing work processes
 - Initial chapter drafts underway
- PH3C website development led by Marc Jamouille
- Terminology/Structure group led by Graeme Miller
 - Overlap with IHTSDO GP SIG, focus on SNOMED refset and map
- ICD-11 working group led by Thomas Kuehlelein
 - Struggling to find common ground

Work since 2010

Maintenance, development of ICPC-2

- ICPC-2 v4.2
- KITH maintenance and version control
- Work to revise process codes
- Coding rules development

R&D on ICPC-3

- ICPC-3 'blueprint'
- Conceptual work to refine non-episode related info [personal factors]
- ICPC-3 Chapter draft(s)
- Still more work on ICF

STRUCTURE

Person:

- demographics
- social structure
- goals, preferences
- functional status (?)

Problem(s):

- RFE as starting point
- current/active
- severity

Clinical Modifiers:

- prevention
- risk factors
- significant events

Actions (“Process”):

- Decisions
- Interventions
- Plans

Time:

- Episode structure

Data import/export:

- Exchange protocols

**A Primary Care Data Model:
simple building blocks to capture complex reality.**

Klinkman, Phillips, Green, Pace: 2008

STRUCTURE

Person:

ICPC

Data import/export:

Exchange protocols

**ICPC provides structure and some (basic) content.
New content development is needed.**

Organization and funding

WICC structure since 2007

- “Expert volunteer” committee
- Chair/ Deputy Chair/ Executive
 - *Mike Klinkman / Anders Grimsmo / Thomas Kuehlein, Helena Britt, Francois Mennerat*
- Full (and associate) members
 - Observers permitted and encouraged
- Working Groups – where most of work should be done
 - Increasing autonomy with oversight of Executive
- Full Committee meetings for information, direction, consensus

2012 funding proposals

ACTIVITY	LEAD	\$ req
Support for regional outreach to Africa (linked to WICC meeting in Joburg)	Klinkman/Moosa	\$5000
Support for “external” work (harmonization with WHO, IHTSDO)	Several	\$7500
Support for ISO liaison	Mennerat	\$4900
Support for ICPC-3 development work	Several	\$5400
Consortium Planning fund	WICC executive	\$4300
TOTAL BUDGET REQUEST		\$27100
WONCA BUDGET ALLOCATION		\$1000

ICPC license sales

\$84,000 USD

2002-2005

Belgium,
Norway,
(Australia)

\$215,000 USD

2006-2008

Portugal,
Switzerland,
Finland, Turkey,
Brazil, Iceland,
Denmark, Georgia,
(Australia)

\$60,000 USD

2009-2012

Hong Kong,
US (commercial),
(Australia)

Changing how we work.

Current: Wonca WP

- Volunteer work to maintain ICPC-2
- Project-specific approval for work toward ICPC-3
- Harmonization and collaboration as time and resources allow
- No organized marketing
- Continued one-time “sales” model for licensing
- **Missed opportunity**

Goal: **Consortium**

- Member countries support costs of development of classification tools
- Support also covers maintenance, dissemination, training, harmonization
- Classification tools are free, open-source, with use/support agreements in place
- Member countries have role in governance of work done (management board)

Revising our internal rules.

- Nominations and elections
 - *too complicated?*
 - *in-person or electronic?*
 - *term length?*
- Membership
 - *associate member??*
- *Need to balance simplicity with responsibility to represent Wonca*

Next steps.

GOALS for the meeting

- Begin work to revise our internal policies
- Make progress on work plan for ICPC-3
 - *Review and improve work process and tools*
 - *Discuss progress with chapter work to date*
 - *Work plan for 2013-14*
- Review and approve the work plan for the IHTSDO FP/GP SIG
- Decide how to continue collaboration with WHO on ICD-11
- Begin plan for promotion and dissemination of ICPC
- *Long term: find sustainable support for work*

Overall agenda

Today:

AM -presentations, State of WICC

PM - Michael Kidd Skype, marketing/communication,WG

Sunday: ICPC-3

AM – Overview of working process, data model

PM – examples of chapter work and issues raised, time to meet

Monday: internal working groups

AM – Process, PERI, Transform collaboration

PM – **travel to Soweto**

Tuesday: External work

AM – IHTSDO, ACGi, WHO liaison work

PM - Translations, WGs work on 2013 action plan, **Braai**

Wednesday:

AM – action plans, plans for next meeting

PRIORITIES

Improve our
working rules

Get going on
ICPC-3

to countries

MALOSTRANSKÁ

Questions?

Progress toward Consortium

M/Y	Action
9/2009	Wonca, WICC agree to explore creation of Consortium to maintain and develop primary care classification tools
12/2009	Initial business plan, budget submitted by WICC
7-8/2010	Wonca letter to Colleges – initial solicitation of interest in funding Consortium
10/2010	Initial Wonca proposal for funding of Consortium
1-6/2011	Some interest expressed, mostly from Europe
Spring 2011	Initial discussions with ACG International
6-8/2011	Discussions with Cielo MedSolutions (US) on support
4-9/2011	Series of teleconferences with Wonca core executive – support for proceeding with “phase 1” of Consortium
1/2012	Wonca Executive denies request for planning funds
1-7/2012	Unproductive discussions with CEO candidate, Wonca Core Exec on funding of classification work; Cielo withdraws, drops license

WICC funding history

YEAR	\$ general	\$ ICPC-3	\$ projects
2005 (plus unspent funds 2004)	20,700	-	
2006 (plus unspent funds 2005)	31,800	-	
2007 (plus unspent funds 2006)	21,500	-	
2008	30,000	20,000	
2009 (including carryover of ICPC-3 budget not spent)	7,500	(20,000)	
2010 (all unspent funds returned to Wonca)	2,000	-	
2011	2,000	(10,000)	3,000
2012	2,000	-	6,250
2013	1,000	-	-

Fitting existing classifications/terminologies together to support primary care.
