# WICC MISSION:

To develop and maintain classifications that accommodate the complete domain of family/general practice

AND

to ensure that these classifications are interoperable to the highest degree possible with standard international health care terminologies and classifications

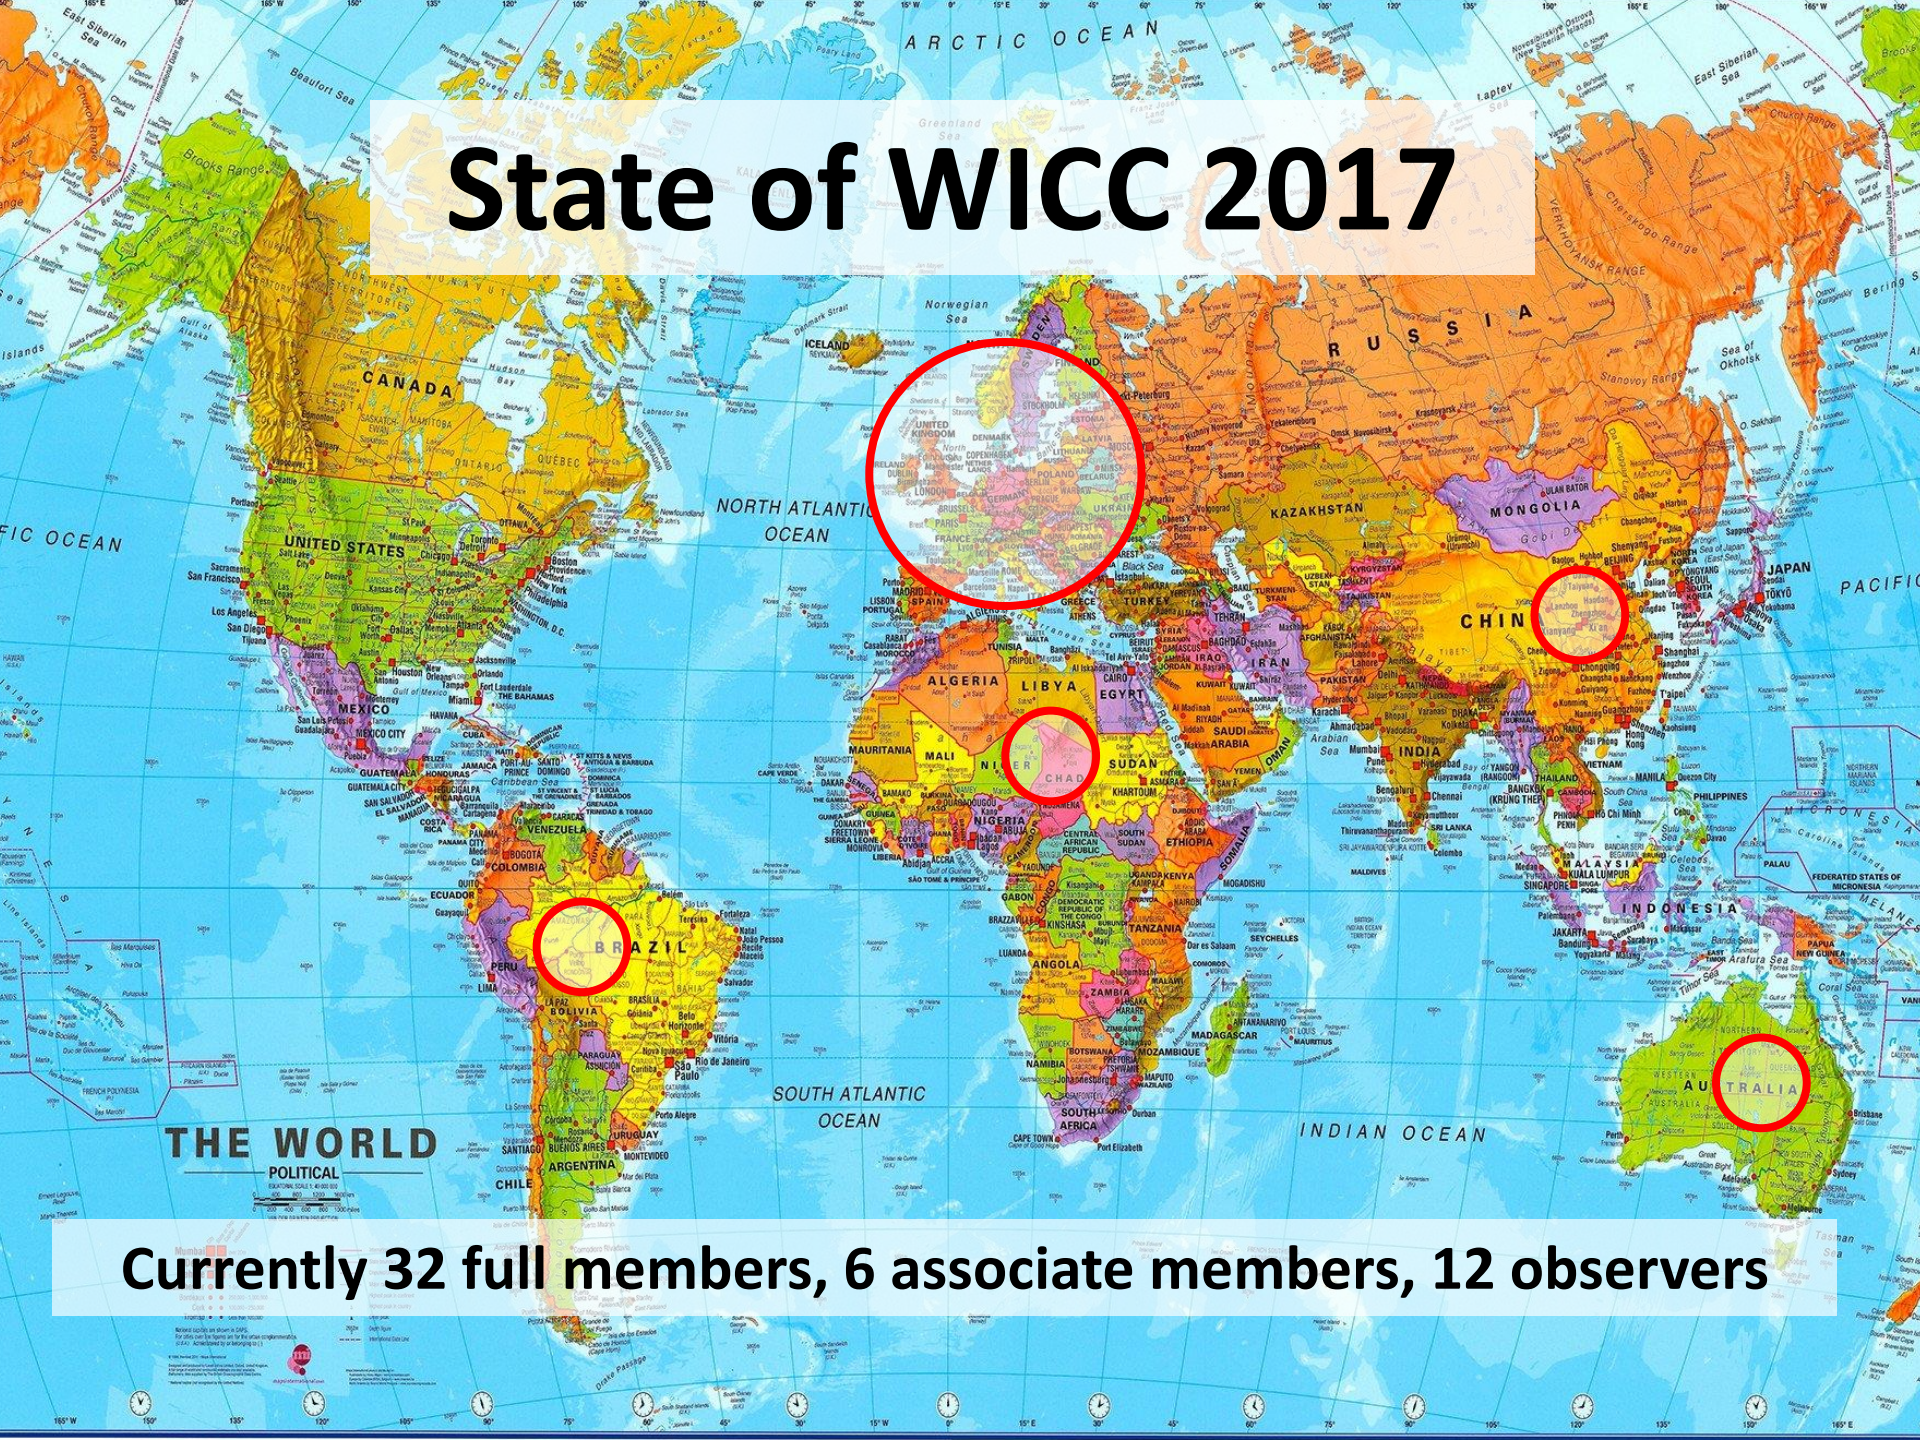

IN ORDER TO

contribute to equitable quality health care worldwide.

# GOALS:

- To achieve widespread international use of ICPC
- To maintain and revise ICPC to accommodate expanded health care knowledge
- To develop productive working relationships with other international standards development organizations
- To support the work of WICC and Wonca through licensing of ICPC
- To create and disseminate additional classification tools as needed to capture and codify the complete domain of family/general practice
