

Alphabetical list of reasons to approach a traditional healer.

-----  
(NB. This is not the authoritative classification; results of a search must be checked.

To search for particular conditions, do a string search for the first 3 letters of your keyword, e.g. "\* abd" for "abdominal".

Note that the order within the chosen 3-letter group is not strictly alphabetical because it is usually more helpful to retain the class structure by organ & by symptom-before-disease within each group.)

In general, for charms see condition that they should prevent.

The organ systems (mnemonics in brackets) are:

A = "general" (All);  
B = "blood";  
D = "digestive";  
F = "eye" (Focus);  
H = "ear" (Hearing);  
K = "circulatory" (Kardiac);  
L = "musculoskeletal" (Limbs);  
N = "neurological";  
P = "psychological";  
R = "respiratory";  
S = "skin" (Surface);  
T = "endocrine & metabolic" (Thyroid);  
U = "urology";  
W = "pregnancy & family planning (Womb);  
X = "female genital system" (X-chromosome);  
Y = "male genital system" (Y-chromosome);  
Z = "magicosocial" (Zoziety; this has been modified from ICPC-2).

NOTES:

- 1) The following assignments are made to satisfy what the "indications" appear to mean in the corresponding source document.
- 2) Organ system A ("general") ONLY holds conditions that
  - a) affect more than one organ system, &/or
  - b) are not described as being localised in one organ system.
- 3) Organ system Z ("magicosocial") holds conditions that are magicosociological disorders; apparently physical disorders, regardless of their cause, fall under sections A-Y. This is for convenience' sake & implies nothing for or against the traditional healing system being classified.
- 4) The general rule followed by ICPC-2 is that symptoms, symptom clusters, fears & other conditions observed & suffered but not firmly diagnosed fall into the number range 01-29 whereas diseases that are diagnosed (EVEN IF they are not specified) are numbered from 70-99. Thus: fever = A03 but yellow fever = A77; feeling ill = A05 but illness (unspecified) = A99.

- 5) Some conditions (generally containing the word "need") have been modified from normal ICPC-2 style to accomodate the limited options of List B.
- 6) "ns" means unspecified; the condition is not further defined. There are implications:
  - a) either the corresponding traditional medicine is a tonic/panacea for all aspects of the general condition listed;
  - b) or no specific subclass of the general condition was captured in the source.Classifications in ICPC2 that are described as "other" are therefore taken to mean "other & unspecified", as in L76.
- 7) "&" means "and/or", as relevant.
