## Vignette 2

55 yr old woman, first visit in 20 years. Pain in right leg started 2 months ago, gradually aggravating. Radiates from the right buttock downwards to the foot. Also frequent episodes of low back pain. She wants some stronger painkillers.

The doctor wants to address her obesity (BMI 35) and talks to her about treatment. Stays with husband and two of four children in house with garden. She fears not to be able to do the work in the house any longer.

## Coding the Episodes of Care:

### RFES

- Low back pain, pain right leg and buttock: ??
- Wants some strong painkillers: ??
- Fears not to be able to do the work in the house any longer: ??
- Doctor wants to address obesity

## Vignette 2

### Process

- O/ leg has diminished reflexes, straight leg test 30 dgr. When asking about problems of urinary tract (to find out if there is nerve damage) she tells you that she has frequent urinating and is also very thirsty.
- Random blood glucose test: 15.0 mmol/l.

# Coding the episodes of care: Health Problems/Diagnosis

- Obesity: ???
- Back syndrome with radiating pain:  
???
- Diabetes:???

# Coding the episodes of care: Interventions, the process of care

For the back syndrome with radiating pain:

- Observation/health education/advice/diet: ???
- Medication-prescription: ???

For the obesity and diabetes:

- Observation/health education/advice/diet: ???

# Coding the Episodes of Care: Reasons for encounter

- Low back pain, pain right leg and buttock:  
L03, L14
- Wants some strong painkillers:  
L50
- Fears not to be able to do the work in the house any longer:  
L28
- Doctor wants to address obesity: T64

# Coding the Episodes of Care

- O/ leg has diminished reflexes, straight leg test  
30 dgr: L31
- Random blood glucose test: 15.0 mmol/l:  
T34

# Coding the episodes of care: Health Problems/Diagnosis

- Obesity: T82
- Back syndrome with radiating pain:  
L86
- Diabetes, non-insulin dependent:  
T90

# Coding the episodes of care: Interventions, the process of care

For the back syndrome with radiating pain:

- Observation/health education/advice/diet: L45
- Medication-prescription: L50

For the obesity and diabetes:

- Observation/health education/advice/diet: T45

# SUMMARY

## EPIISODES OF CARE :

- L86: Back syndrome with radiating pain
- T82: Obesity
- T90: Diabetes, non-insulin dependent
